SUMMARY

Highly analytical Full Stack Engineer with proven expertise in building scalable web architectures, optimized backend systems, and containerized cloud deployments. Proficient across the Next.js, Node.js, and AWS ecosystems. Experienced in optimizing database performance, streamlining data pipelines, and implementing secure, multi-role enterprise platforms. Dedicated to writing clean, maintainable code that directly solves complex business logic.

TECHNICAL SKILLS

- **Frontend:** Next.js, React.js, TypeScript, Tailwind CSS, Zustand, Framer Motion, Shadcn
- **Backend & Databases:** Node.js, Express.js, MongoDB, Firebase, RESTful APIs, Microservices
- **DevOps, Cloud & Tools:** AWS (EKS/EC2), Docker, Git/GitHub, Agile Methodologies
- **Core Competencies:** System Design, Performance Optimization, Database Indexing

PROFESSIONAL EXPERIENCE

Full Stack Engineer, Elexoft Technologies

Nov 2025 - Present

- Architect and maintain high-performance full-stack web applications utilizing Next.js, Node.js, and MongoDB, ensuring scalable code architecture.
- Collaborate closely with backend engineers and cross-functional teams to optimize API response times, refactor legacy code bases, and streamline deployment workflows.

Frontend Developer, Lite Studio

Feb 2025 - Aug 2025

- Developed responsive and user-friendly web interfaces using modern frontend technologies.
- Translated UI/UX designs into interactive, reusable, and high-performance components.
- Collaborated with designers and backend developers to deliver seamless and engaging user experiences.

PROJECTS

CarePulse – Doctor Appointment Booking System <https://cardiac-doctor-appointment-system.vercel.app>

- Developed a Doctor Appointment Booking System using MERN, Next.js, and Nodemailer.
- Designed an automated appointment lifecycle workflow integrating Nodemailer for real-time transactional email triggers, decreasing administrative processing time.
- Built patient and doctor dashboards featuring appointment history, digital prescription management, patient records, and administrative controls for efficient healthcare management.

Devlog- Full Stack Blog Platform

<https://next-blog-app-deployment.vercel.app>

- Engineered a full-stack, multi-role blogging platform featuring secure, isolated User and Admin dashboards with dynamic routing and role-based access control (RBAC).
- Integrated Cloudinary API workflows alongside Multer and Sharp to handle high-performance image resizing, optimization, and secure asset uploading.

EDUCATION

BS Computer Science

2021 - 2025

Government College University

- Major in Computer Technology.
